

Undercounter water cooler

CWP 200

GREEN LINE

Environmentally friendly

NEW MODEL

● The **CWP 200 GREEN LINE** undercounter Water Cooler stands out from conventional water coolers not only because of its design and processing quality, but because of the completely **innovative arrangement of the cooling unit, high performance, light weight, small dimensions and simple design**. Construction of the **CWP 200 GREEN LINE** is a complete innovation in

this category of beverage coolers.

- The **GREEN LINE** cooler series is not only environmentally friendly thanks to the use of ecological **refrigerant R-290**, but also has a **20% Higher cooling power** and **20% Lower electric consumption**. We perform an energy saving system in the production, the cooler is made of fully recyclable materials and without any polyurethane insulation.
- This machine has a continuous cooling performance of 170-190 l/hour, max. 200 l/hour.
- The modern compressor cooling unit uses the power input for direct transfer to chilling, which guarantees minimum energy usage.
- High-quality and evenly cooled beverage **runs without any temperature shock** in a sufficiently long stainless steel coil. High-quality chilled beverages will be ready within 8-10 minutes after the cooler has been switched on and its temperature can be controlled instantly and continuously by using the temperature controller.
- **LINDR cooling technology is 45% more efficient** than its power input.
- The CWP 200 GREEN LINE is equipped with an accompanying submersible pump to secure perfect cooling of the beverage right up to the tap.
- Modern arrangement of the cooling technology guarantees simple operation and reduces the time demanded for maintenance and servicing.
- The materials used meet the highest requirements for hygiene standards and guarantee a long working life of this cooler.
